# **GCSE MARKING SCHEME**

---

**SUMMER 2023**

**GCSE  
DOUBLE AWARD SCIENCE  
BIOLOGY 1 - UNIT 1  
3430U10-1 AND 3430UA0-1**

## **INTRODUCTION**

This marking scheme was used by WJEC for the 2023 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

## **DOUBLE AWARD SCIENCE**

### **UNIT 1 BIOLOGY 1**

## **SUMMER 2023 MARK SCHEME**

### **GENERAL INSTRUCTIONS**

#### **Recording of marks**

Examiners must mark in red ink.

One tick must equate to one mark (apart from the questions where a level of response mark scheme is applied).

Question totals should be written in the box at the end of the question.

Question totals should be entered onto the grid on the front cover and these should be added to give the script total for each candidate.

#### **Marking rules**

All work should be seen to have been marked.

Marking schemes will indicate when explicit working is deemed to be a necessary part of a correct answer.

Crossed out responses not replaced should be marked.

Credit will be given for correct and relevant alternative responses which are not recorded in the mark scheme.

#### **Extended response question**

A level of response mark scheme is used. Before applying the mark scheme please read through the whole answer from start to finish. Firstly, decide which level descriptor matches best with the candidate's response: remember that you should be considering the overall quality of the response. Then decide which mark to award within the level. Award the higher mark in the level if there is a good match with both the content statements and the communication statements.

## Marking abbreviations

The following may be used in marking schemes or in the marking of scripts to indicate reasons for the marks awarded.

cao	=	correct answer only
ecf	=	error carried forward
bod	=	benefit of doubt

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
1	(a)			Sun(light) /solar	1			1		
	(b)	(i)		6		1		1		
		(ii)		1.5 Ecf from (i)		1		1		
		(iii)	I	<b>Any one (x1) from</b> reference to {part/half} squares (1) not counting the sides of the leaf (1) only counting the middle of the leaf (1)			1	1		2
			II	<b>Any one (x1) from</b> Count/ include/ use} {mostly/ half} (covered) (1) use (grid with) smaller squares (1)			1	1		
		(iv)	I	0.6		1		1	1	
			II	<u>Supported</u>			1	1		
	(c)			To get more light (1) for photosynthesis (1)		2		2
